SUPPORT

WHAT IS PASTORAL CARE?

The experience of illness and/or being admitted to a care home has a significant impact on our whole being. As well as the physical, psychological, and social dimensions of human life, our spiritual values - our understanding of who we are and how we relate to our world - are often disrupted. While this experience can be difficult, it can also be a time for significant personal growth. Chaplains are important members of your healing team. They have the training and experience to respond professionally and confidentially to people of all faiths.
