BUS TRIPS

WHAT'S HAPPENING?

Mother Goose

This is an inter-generational program that connects pre-school children with our residents. They come together to sing, connect and laugh with the children.

Concert in Care

Health Arts Society was established in the first days of 2006 to meet the need for high quality, live professional arts programmes for elders in residential care

Multicultural Month

February is the month we celebrate four countries that are part of residents heritage. Germany, Italy, Mexico and Russia

Chomp Saw

What is this? A new innovative way to bring safe tools that can mimic the use of a jigsaw. We want to inspire the men to be part of this program

New!

Sensory Rover

This multisensory rover helps residents relax and calm anxious behaviours. Sound, lights, & a bubble tower creates a calm environment

Sneak Peek

Bus Trips

Whether the bus trip is a country drive, a lunch trip, or a day at the zoo, it brings joy to our residents as they see the community and have an adventure.

GRANDPARENTS DAY – SEPTEMBER 12

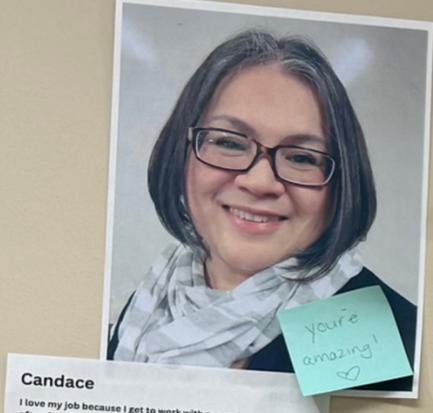

Therapeutic Recreation Appreciation Month

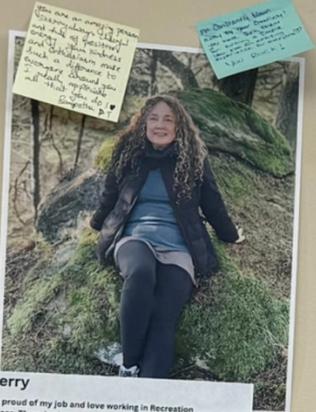

Messages of Appreciation

For all your years of care is fun - Thank you! Sherry

Candace
I love my job because I get to work with a population that is often forgotten and make them feel heard and special - because they are!

Sherry
I feel proud of my job and love working in Recreation Services. There is always something to do in my role here, and being busy with a variety of tasks is a value of mine. My favorite part of the job is building relationships with the residents and getting to know them. The residents bring the best out in me!

Vera

Christy

Kelly

Miranda

Mariana

Lina
I love to help people be their best and happiest selves.

Brittany
I love my job as a Recreation Aide because I love to create connection. We get to connect with the residents and bring them a little joy into their daily lives. For some of our residents we are their family and it is important to me to make sure they feel loved and safe everyday.

Emma

Timea
I love creating meaningful activities, bringing smiles to residents' faces, and listening to the life stories they share.

Sharlene
I get to share my creative ideas, diverse skills, and passionate attitude without needing to be a master of any one thing. Working in long-term care, residents are simply happy that you're spending time with them and sharing your enthusiasm - no matter what the program is. Lastly, there's no better feeling than reaching a level of connection with a resident where it becomes a familiar, loving bond that no longer feels like work, but instead feels like spending time with good friends, laughing and having fun.

A CALLING MADE VISIBLE

PROFESSOR

It happens in ordinary rooms that become sacred through presence. In time borrowed from meetings and meanderings, to choose made with wisdom, humility, and hope.

This is not simply a profession. It is a calling to steward joy, to protect dignity, to awaken the human spirit again and again.

Anyone who can carry all of this is someone extraordinary.

That someone is an **ACTIVITY PROFESSIONAL**.

You rock! ❤️
